Established in 1917, TOTO was Japan’s first sanitary-ware manufacturer. Since then it has brought the world many revolutionary technologies. TOTO continues to pioneer this spirit while keeping in mind the main goal:

IMPROVING PEOPLE’S LIVES
1917 The company is established by Kazuchika Okura under the name TOYO TOKI CO. LTD. which is later renamed TOTO

1980 TOTO launches the WASHLET, providing customers with a whole new level of cleanliness and comfort.

1993 The NEOREST toilet is launched incorporating the WASHLET with a comprehensive range of TOTO’s innovations. It brings with it the fullest realization yet of the principal of Clean Technology

2008 The TOTO Universal Design Research Centre is built. Its purpose is to create new products through an extensive process of customer dialogue and feedback.

2010 TOTO Neorest Hybrid Series was launched, and only using 4.8L per flush. At the International Sanitary and Heating Trade Show in Frankfurt, Germany, we announce our intention to establish this as a global standard. Shipments of NEOREST series reach 1 million units.

2015 TOTO WASHLET Sales exceed 40,000,000 pieces worldwide.
WHEN TECHNOLOGY MEETS ESSENTIALS, NEOREST IS WHAT YOU SEE. COMBINING TOTO’S SIGNATURE CLEAN DESIGNS AND THE LATEST TECHNOLOGIES INCLUDING INBUILT WASHLET FUNCTIONS, THE NEOREST SERIES ENHANCE YOUR SMART LIVING FROM THE INNERMOST CHAMBER IN YOUR HOME. WE KNOW A LIFESTYLE THAT LIVES UP TO THE FUTURE IS ABOUT MAKING BETTER TECHNOLOGY THAT TOUCHES YOU FROM WITHIN.
NEOREST SERIES
XH TYPE  •  LE TYPE  •  AH TYPE
A dedication to a better life that pushes the limits of innovation to make technological breakthroughs. Designed with sturdy lines and coupled with the Actilight and EWATER+ technologies, the NEOREST XH brings new heightened levels of health and hygiene. Enjoy a refreshing life every single day with the pleasure of using a high-tech toilet that always looks and feels brand new.
NEOREST XH II WITH ACTILIGHT

CW993VA / TCF993WA

Flush System: Tornado (3.8L / 3L) Hybrid Ecology System
Rough-in: 305mm
Size: 448W x 820D x 527H mm

Remote Control

Neorest XH II carrying innovative Actilight technology
NEOREST XH I

CW992VA / TCF992WA

Flush System: Tornado (3.8L / 3L)
Hybrid Ecology System

Rough-in: 305mm

Size: 448W x 820D x 527H mm

Remote Control ▼
Unleash your imagination like how a bowl can appear in a box shape with sleek corners. Appealing to you in the same way as NEOREST XH does, NEOREST LE tops it up with a gadget-like feel with light indicators on the cover with soft and curvy lines.
NEOREST LE II WITH ACTILIGHT

CW996P / TCF996WA

Flush System: Tornado (4.5L / 3L)
Rough-in: 220mm (P-Trap)
Size: 423W x 679D x 460H mm

Remote Control

Neorest LE II carrying innovative Actilight technology
NEOREST LE I

CW994P / TCF994WA

Flush System : Tornado (4.5L / 3L)
Rough-in : 220mm (P-Trap)
Size : 423W x 679D x 460H mm

Remote Control ▼
NEOREST AH

A step up from the basics, NEOREST AH brings you the comfort of cleanliness with EWATER+ for a brighter tomorrow. Control your everyday with a push on the remote panel.

ORIGINAL TECHNOLOGY

ACTILIGHT
Zirconium coating combined with UV light for an antibacterial effect that breaks down waste.

RIMLESS DESIGN
Seamless easy-clean bowl design.

WASHLET
An individually adjustable wand system with self-cleaning function.

CEFIONTECT
Special hygienic glaze for a smooth ceramic surface.

WATER-SAVING
Technologies that save water.

AUTO FUNCTIONS
Sensor-controlled technologies activated by human movement.

TORNADO FLUSH
Revolutionary triple-jet flushing system.
SANITIZING FEATURES

TOTO SPECIAL [SANITIZING FEATURES] HELPS MAINTAIN AND KEEP THE TOILET CLEAN. THE PURIFICATION CYCLE WILL ENHANCE THE HYGIENE LEVEL BY SANITIZING, KILLING BACTERIA AND ELIMINATING ODOR.

TOILET TROUBLES?

1. TOILET BOWL HYGIENE
   After using the toilet, Tornado Flush is used to flush away all the dirt and bacteria on the bowl. EWATER+ is sprayed onto the bowl to ensure no dirt is remain on the bowl.

2. NOZZLE HYGIENE
   To maintain the hygiene and allowing the next user to use the washlet comfortably. Tap water and EWATER+ is used to wash the nozzle automatically before and after each usage.

3. ODOUR
   Keeping the toilet free of odor. TOTO’s deodoriser will ensure all bad odor are filtered out before and after each use. Leaving a refresh and odourless toilet ready for the next user.
The NEOREST with Actilight represents the zenith of clean technology made to improve life. It is the only toilet with the technology to stay clean on its own, ridding itself of both visible and invisible waste through a photocatalytic process. Indulge in the comfort and cleanliness of NEOREST with Actilight.
MECHANISM

Actilight includes two key features: an ultraviolet light inside the lid and a scientifically formulated glaze that’s fired onto the bowl. These two technologies work together with oxygen and water in the air to generate the photocatalytic process that decomposes bacteria and waste.

The UV light is located inside the lid. The zirconium oxide in the glaze provides superior durability while giving the bowl a shimmering quality.

THE PURIFICATION CYCLE

When the Neorest is not in use, the ultraviolet light automatically turns on to ensure a continuously clean toilet bowl.

BEFORE

Pre-mist (water) is sprayed into the bowl

DURING

NEOREST flushes automatically and sprays ewater+

AFTER

UV light activates and decomposes waste particles

INTERIM
E-WATER+ is an antibacterial liquid that prevents waste particles from accumulating and staining the toilet bowl. It is automatically sprayed onto the toilet bowl after flushing. It eliminates 99.9% of bacteria and sterilises the bidet nozzle after every use.

THE PURIFICATION CYCLE

BEFORE
- Pre-mist (water) is sprayed into the bowl

DURING
- Nozzle is cleaned with water

AFTER
- Nozzle and bowl is cleaned with ewater+

INTERIM
- After 8 hours of non-use, ewater+ is automatically sprayed
When naturally occurring chloride ions in tap water are electrolysed, they turn into hypochlorous acid, the active ingredient of EWATER+. Hypochlorous acid is capable of instantly sterilising a dirty surface.

EWATER+ converts back into regular water after two hours, making it an Earth-friendly alternative to harsh household cleaning agents.
Symbolising TOTO’s primitive top-notch creation that never fails to surpass the norm, the Washlet surprised the world by making its first appearance starting from Japan as early as 1980. Since then, we never looked back; so will you once you start using it.

With further improvisation and invention of more comfort functions such as self-sanitisation and deodoriser, what we see today is revolution in itself.

### CUSTOMISED SPRAY PATTERNS

- **Rear**
  - A powerful flow of water
- **Front**
  - A spotted water flow
- **Rear-soft**
  - A soft and gentle water flow
- **Wide-front**
  - A light flow covering a wider area

### WONDERWAVE CLEANSING

This technique sprays water droplets in rapid succession to achieve powerful cleansing while only using small amount of water. This technology strikes a balance between eco-friendliness and comfort by supplying an alternate motion of large and small water droplets to provide a sense of abundance yet sufficient strength.
OTHER WASHLET FEATURES

- Oscillating Spray Nozzle
- Air Purifier (Deodoriser)
- Air Dryer
- Seat Warmer
- Easy remove for cleaning
- Auto open and close
HYBRID ECOLOGY SYSTEM

A unique flush technology that combines two different kinds of water flow: one comes directly from the waterworks and the other comes from the built-in tank after pressurization, significant water savings can be achieved compared with conventional water saving toilets.
A good bathroom provides comfort and creates a private space for distressing from everyday life. Auto functions not only provide ease of use and convenience, but also another key benefit: There’s no need to touch the toilet, hence increasing the level of hygiene while reducing the frequency of manual toilet cleaning.

Advantages

Ease of use, no need for direct contact with the toilet, regulates energy consumption
TOILET TECHNOLOGIES

TOTO developed all the toilet technologies used in its products. It has also continued to improve them consistently. These technologies mark the standards in every TOTO toilet, ensuring the greatest possible hygiene as demonstrated in expert reports and studies.
TORNADO FLUSH

Tornado Flush is an integral feature of TOTO toilets. It re-imagines the way a toilet flushes. Instead of a conventional flush that pours down from the rim, Tornado Flush projects three high-pressure water jets that generate a tornado-like vortex of water, forcing waste off the bowl's surface. It is quiet yet at the same time water efficient.

Advantages

A more quiet flush, cleans the entire bowl more thoroughly hence reducing the need for chemical cleansers.

RIMLESS DESIGN

The Rimless Design eliminates areas where dirt and bacteria tend to settle on. With less crevices than a conventional bowl, all areas of the bowl can be easily reached with minimal cleansing agents, making it friendlier to you as well as the environment.

Advantages

Easier to clean, minimises the need for toilet cleaner.

CEFIONTECT

CeFiONtect is a special glaze applied to TOTO ceramic products that makes the surface ultra-smooth even at microscopic levels so that waste particles easily slide off. This prevents the formation of ridges caused by wear and tear that will create breeding spaces for bacteria. This CeFiONtect glaze is applied before firing hence is extremely resilient and long-lasting.

Advantages

Easier to clean, dirt resistant, minimises the amount of toilet cleaner required.
