COLLECTIONS 2017

## TOTO HISTORY

1 9 2 3

The Great Kanto Earthquake strikes devastating Tokyo. A sewage system is built during the reconstruction, leading to a rapid growth in demand for sanitary ware.

1 9 7 7

TOTO's first overseas factory opens, named P.T. Surya TOTO Indonesia.

OUR  
STORY

1 9 1 7

The company is established by Kazuchika Okura under the name, TOYO TOKI CO. LTD. which is later renamed TOTO.

1 9 4 6

After World War II, TOTO begins manufacturing metal fittings and faucets in addition to ceramics.

1 9 8 0

TOTO launches the WASHLET, providing consumers with a whole new level of cleanliness and comfort.

1 9 9 3

The NEOREST toilet is launched incorporating the WASHLET with a comprehensive range of TOTO's innovations. It brings with it the fullest realization yet of the principle of Clean Technology.

2 0 0 9

TOTO launches in Europe with a grand opening at the ISH Exhibition in Frankfurt, Germany.

2 0 0 8

TOTO Asia Oceania Pte. Ltd. is established as the regional headquarters of the Middle East, South Asia, South East Asia, and Oceania.

2 0 1 3

TOTO Asia Oceania launches its first Technical Center in Singapore. It serves to introduce TOTO's latest products and technologies to customers.

2 0 1 5

TOTO Washlet Sales exceed 40,000,000 pieces worldwide.

# 2016

## 40 MILLION WASHLETS SOLD WORLDWIDE

100% TOTO  
100% MADE FOR YOU

## Global Environmental Vision

# Water, Earth & A Better Tomorrow

The TOTO Group has formulated the Global Environmental Vision to deepen its activities to tackle the environmental and social issues in regions around the world.

## Green Initiatives

TOTO Technologies provide maximum comfort and minimum consumption

HYDROTECT-coated surfaces (facades, windows and tiles) clean themselves and the air around them. When used indoors, they are also antibacterial.

Water is aerated for a fuller, more comfortable flow of water - an enhanced shower experience that uses less water. This is why we feature the Aerial Pulse or Aerial Shower technologies in our showers and EcoCap in our wash basin faucets.

Automatic faucets save water and electricity.

Ceramics featuring the CeFiONtect glaze prevent dirt and bacteria from accumulating. They also require less water and fewer cleaning products to keep clean.

We have toilets that you can use with either a 3 or 4.8 l flush. Many of our toilets are equipped with the highly effective three-jet Tornado Flush. The rimless design and CeFiONtect glaze make it easier to clean these toilets thoroughly - no aggressive cleansers necessary. The next-generation WASHLETs, equipped with Actilight and ewater+ technologies, go one step further. They have antibacterial and self-cleaning features.

## OUR DESIGN PHILOSOPHY

TOTO has a wide range of products that caters to all in terms of design and user needs. Be it the essentials or the luxury series, the designs would fit anywhere, everywhere. The principle of design lies in our philosophy of creating a Clean and Green product with Comfort.

### CLEAN

TOTO embraces technology in the pursuit of cleanliness, creating high levels of hygiene and relaxation. Its Clean Technology is not only about hygiene; it provides enjoyment and comfort for everyone of all ages. It is all about increasing the user's fulfilling moments while reducing time spent on bathroom maintenance.

### GREEN

Eco-friendly effects are achieved with TOTO's sustainable features that promote saving of energy and water. Some of TOTO's technologies require almost no chemicals for cleaning, and some even break down pollutants in the air. Every time you use a TOTO bathroom, the planet benefits.

### COMFORT

TOTO incorporates comfort features in its Clean Technology for its products with a sophisticated eye for design. Nonetheless, TOTO's design philosophy goes beyond providing comfort to the eyes; every product facilitates easy usage and user satisfaction for everyone, dedicating the best comfort to all.

# OUR AWARD WINNING PRODUCTS

reddot design award

Since their introduction in the year 1953, the iF design awards have been a reliable indicator of outstanding quality in design. The iF product design award covers all areas of product design. It serves as a platform for design-relevant innovations, thus recognizing today's globally networked world and its related dynamics.

Organized annually by The Chicago Athenaeum: Museum of Architecture and Design, together with The European Centre for Architecture Art Design and Urban Studies, Green GOOD DESIGN is the benchmark for new designs that foster a greater sense of ecological-based design, eco-innovation, conservation, green technologies, renewable energy, and sustainability to better the quality of both life and the environment.

# TOTO TECHNOLOGIES

## ACTILIGHT

Zirconium coating combined with UV light for an antibacterial effect that breaks down waste

## AERIAL SHOWER

Aerated water for the shower

## WASHLET

An individually adjustable wand system with self-cleaning function

## AERIAL PULSE

Aerated water with a pulsating function

## EWATER+

Electrolysed antibacterial water that breaks down waste

## WATER PILLAR

Light yet voluminous stream of water

## WATER-SAVING

Technologies that save water

## GYROSTREAM

Shower jets with rotating and pulsating functions

## TORNADO FLUSH

Revolutionary triple-jet flushing system

## CASCADE FLOW

Waterfall-like shower function that warms the entire body

## RIMLESS DESIGN

Seamless easy-clean bowl design

## ECOCAP

Fuller aerated water stream

## CEFIONTECT

Special hygienic glaze for a smooth ceramic surface

## SELF POWER

Sensor-activated faucet generates its own electricity

## AUTO FUNCTIONS

Sensor-controlled technologies activated by human movement

## SMA

Maintains a constant water temperature despite fluctuating water supply temperatures and pressure levels

## HYDROTECT

Intelligent coating for indoor and outdoor surfaces using photocatalyst technology

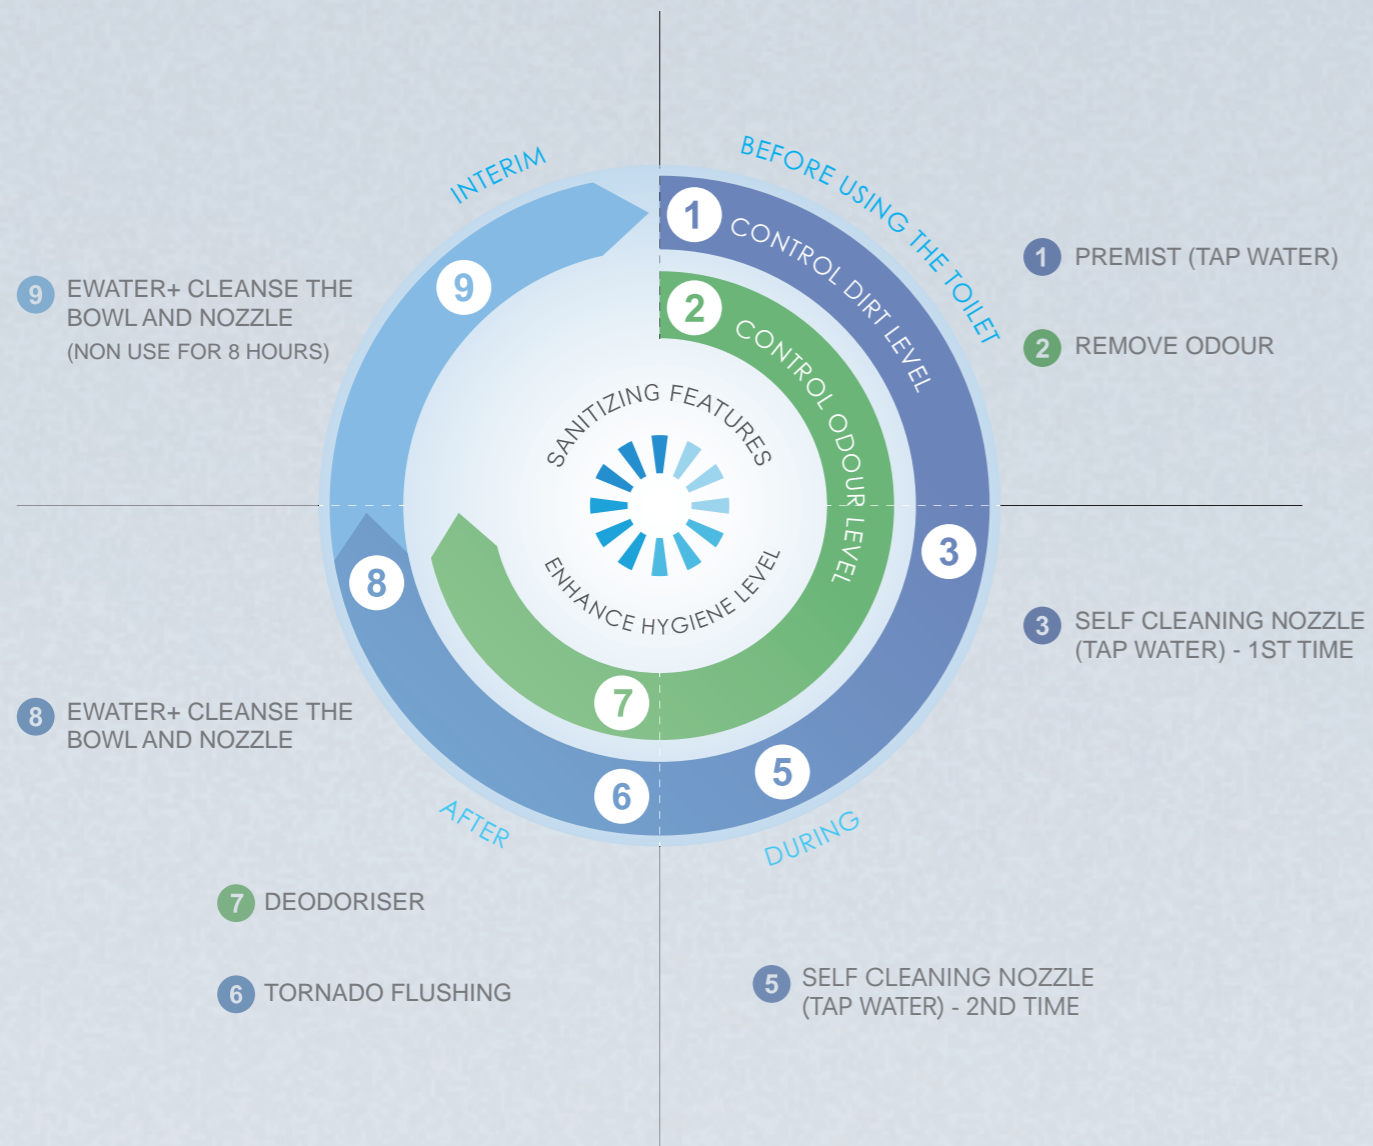

## LUMINIST

Translucent epoxy resin material

## SANITIZING FEATURES

TOTO SPECIAL [ SANITIZING FEATURES ] HELPS MAINTAIN AND KEEP THE TOILET CLEAN , THE PURIFICATION CYCLE WILL ENHANCE THE HYGIENE LEVEL BY SANITIZING , KILLING BACTERIA AND ELIMINATING ODOUR.

## ACTILIGHT

The NEOREST with Actilight represents the zenith of clean technology made to improve life. It is the only toilet with the technology to stay clean on its own, ridding itself of both visible and invisible waste through a photocatalytic process. Indulge in the comfort and cleanliness of NEOREST with Actilight.

### MECHANISM

Actilight includes two key features: an ultraviolet light inside the lid and a scientifically formulated glaze that's fired onto the bowl. These two technologies work together with oxygen and water in the air to generate the photocatalytic process that decomposes bacteria and waste.

The UV light is located inside the lid. The zirconium oxide in the glaze provides superior durability while giving the bowl a shimmering quality.

### THE PURIFICATION CYCLE

When the Neorest is not in use, the ultraviolet light automatically turns on to ensure a continuously clean toilet bowl.

BEFORE

Pre-mist (water) is sprayed into the bowl

DURING

AFTER

NEOREST flushes automatically and sprays ewater+

INTERIM

UV light activates and decomposes waste particles

## EWATER+

# ELIMINATING 99.9% OF BACTERIA THAT CAN BE FOUND ON THE TOILET BOWL.

EWATER+ is an antibacterial liquid that prevents waste particles from accumulating and staining the toilet bowl. It is automatically sprayed onto the toilet bowl after flushing. It eliminates 99.9% of bacteria and sterilises the bidet nozzle after every use.

Tap water is electrolysed as it travels through the toilet.

## HOW IT WORKS

When naturally occurring chloride ions in tap water are electrolysed, they turn into hypochlorous acid, the active ingredient of ewater+. Hypochlorous acid is capable of instantly sterilising a dirty surface.

EWATER+ converts back into regular water after two hours, making it an Earth-friendly alternative to harsh household cleaning agents.

# WASHLET

Symbolising TOTO's primitive top-notch creation that never fails to surpass the norm, the Washlet surprised the world by making its first appearance starting from Japan as early as 1980. Since then, we never looked back; so will you once you start using it.

With further improvisation and invention of more comfort functions such as self-sanitisation and deodoriser, what we see today is revolution in itself.

## CUSTOMISED SPRAY PATTERNS

**Rear**  
A powerful flow of water

**Front**  
A spotted water flow

**Rear-soft**  
A soft and gentle water flow

**Wide-front**  
A light flow covering a wider area

## WONDERWAVE CLEANSING

This technique sprays water droplets in rapid succession to achieve powerful cleansing while only using small amount of water. This technology strikes a balance between eco-friendliness and comfort by supplying an alternate motion of large and small water droplets to provide a sense of abundance yet sufficient strength.

**OTHER WASHLET FEATURES**

-   
 Oscillating  
Spray Nozzle
-   
 Air Purifier  
(Deodoriser)
-   
 Air Dryer
-   
 Seat Warmer
-

# TOILET TECHNOLOGIES

TOTO developed all the toilet technologies used in its products. It has also continued to improve them consistently.

These technologies mark the standards in every TOTO toilet, ensuring the greatest possible hygiene as demonstrated in expert reports and studies.

## TORNADO FLUSH

Tornado Flush is an integral feature of TOTO toilets. It re-imagines the way a toilet flushes. Instead of a conventional flush that pours down from the rim, Tornado Flush projects three high-pressure water jets that generate a tornado-like vortex of water, forcing waste off the bowl's surface. It is quiet yet at the same time water efficient.

Regular Flushing

Tornado Flushing

### Advantages

A more quiet flush, cleans the entire bowl more thoroughly hence reducing the need for chemical cleansers

## RIMLESS DESIGN

The Rimless Design eliminates areas where dirt and bacteria tend to settle on. With less crevices than a conventional bowl, all areas of the bowl can be easily reached with minimal cleansing agents, making it friendlier to you as well as the environment.

Regular Rim

Rimless Design

### Advantages

Easier to clean, minimises the need for toilet cleaner

## CEFIONTECT

CeFiONtect is a special glaze applied to TOTO ceramic products that makes the surface ultra-smooth even at microscopic levels so that waste particles easily slide off. This prevents the formation of ridges caused by wear and tear that will create breeding spaces for bacteria. This CeFiONtect glaze is applied before firing hence is extremely resilient and long-lasting.

Conventional Toilet

CeFiONtect Toilet

### Advantages

Easier to clean, dirt resistant, minimises the amount of toilet cleaner required

## AUTO FUNCTIONS

A good bathroom provides comfort and creates a private space for distancing from everyday life. Auto functions not only provide ease of use and convenience, but also another key benefit : There's no need to touch the toilet, hence increasing the level of hygiene while reducing the frequency of manual toilet cleaning.

### Advantages

Ease of use, no need for direct contact with the toilet, regulates energy consumption

# LAVATORY TECHNOLOGIES

## CEFIONTECT

Our special CeFiONtect glaze is applied onto the surfaces of all TOTO ceramics, ensuring an ever-lasting shine. Most importantly, it is exceptionally hygienic as it's nearly impossible for dirt and mould to stick to the surface. It is extremely hard-wearing thus ensuring natural long-lasting surface protection and cleanliness.

## LUMINIST

TOTO created a special kind of epoxy resin material that combines a soft silky texture and a translucent appearance with superior durability and heat resistance. Lavatories and bathtubs made from Luminist are highly durable. Luminist can also be combined with LEDs, enabling you to use light as a design element in your bathroom.

### Advantages

Attractive appearance, extremely durable, long-lasting

# SHOWER TECHNOLOGIES

Turn your daily routine into an everyday luxury.

## AERIAL SHOWER

Aerial Shower aerates the water to make the shower experience more enjoyable. You feel as though you're standing below a particularly full stream without any increase in the usage of water.

### Advantages

Comfortable shower experience, less water consumption

### MECHANISM

A secret chamber mixes the air into the water without slowing down the flow. Results in full coverage shower that uses less water.

## AERIAL PULSE

TOTO fixed shower heads are equipped with Aerial Pulse technology offering a voluminous flow with little water consumption. Air is drawn in through the shower head and added to the water. The shower head pulses the enlarged water droplets as they fall to give a relaxing experience.

### Advantages

A more enjoyable shower experience, less water consumption

### MECHANISM

The pulsing effect is created by rapidly altering the concentration of air inside the water droplets.

## WATER PILLAR

With Water Pillar technology, TOTO controls a single stream of water making it glide gently over the entire body like a second layer of skin. The density prevents heat from escaping and permeates the whole body with an invigorating warmth.

### Advantages

Contributes to the body's well-being, gentle shower experience, nearly splash-free, keeps the entire body warm

### MECHANISM

A special structure inside the shower head causes the water to flow evenly, forming a dense, enveloping layer of water.

## GYROSTREAM

The bathroom is a space where health and well-being take centre stage. Gyrostream offers the same relaxing effect that you'd find in a bathtub. Rotating nozzles deliver a stimulating massage that spreads its effect over a wide area of the body.

### Advantages

Massage function, consistently keeps the body warm

### MECHANISM

Water sprays out through nozzles that rotate in two different directions resulting in a powerful flow of water. These water vortices provide an invigorating massaging effect.

## CASCADE FLOW

Cascade Flow technology creates a shower experience similar to standing under a curved water-fall. A curved slit in the shower head allows a wide stream of water to flow, evenly warming and soothing the entire body for long-lasting relaxation - even after the shower.

### Advantages

Consistently warm, luxurious flow of water, outstanding comfort

### MECHANISM

By carefully controlling the speed and shape of the flowing water, TOTO has developed a rejuvenating new function. Cascade flow is a soothing blanket of water that spreads warmth throughout the entire body.

## FAUCET TECHNOLOGIES

## SMA

With SMA (Shape Memory Alloy), TOTO can ensure reliability where you need it most. SMA maintains a constant water temperature amidst the fluctuations of temperature and pressure level of the main water supply especially when another water outlet is being used somewhere else in the household.

The result is a safe water temperature you can rely on, whether you're in the shower or washing your hands without the need for manual adjustment every now and then.

### Advantages

Constant, comfortable temperature, reduces water consumption

## ECOCAP

EcoCap allows you to wash your hands with a clean conscience, as this intelligent TOTO technology significantly reduces water consumption.

Here's how it works : Mixing air with water can reduce consumption without any loss in steam volume.

### Advantages

Constant, comfortable temperature, reduces water consumption

## AUTO FUNCTIONS

The automatic faucets feature an almost invisible sensor in the spout. It registers every hand movement precisely and is tamper-proof.

### Advantages

Ease of use, no need for direct contact with the toilet, regulates energy consumption

## SELF POWER

TOTO automatic faucets no longer need power from an electrical outlet. The energy from the flowing water is used to charge a battery that powers the faucet. The faucets require practically no maintenance.

### Advantages

Easy to use, reduces physical contact, requires no external power supply, uses little energy

# NEOREST

WHEN TECHNOLOGY MEETS ESSENTIALS, NEOREST IS WHAT YOU SEE. COMBINING TOTO'S SIGNATURE CLEAN DESIGNS AND THE LATEST TECHNOLOGIES INCLUDING INBUILT WASHLET FUNCTIONS, THE NEOREST SERIES ENHANCE YOUR SMART LIVING FROM THE INNERMOST CHAMBER IN YOUR HOME. WE KNOW A LIFESTYLE THAT LIVES UP TO THE FUTURE IS ABOUT MAKING BETTER TECHNOLOGY THAT TOUCHES YOU FROM WITHIN.

# LE BLANC

A MINIMALIST DESIGN THAT EXUDES GRACE AND SOPHISTICATION IS THE OVER-ARCHING AESTHETIC OF THE LE BLANC SERIES. THE SHAPES ARE REMINISCENT OF THE SMOOTH FORMS OF A FEMININE FIGURE, ADDING A TOUCH OF ELEGANCE AND TENDERNESS TO THE DÉCOR.

## THE EVOLUTION OF HYGIENE

TOTO leads Japan's sanitary ware industry, and their name has become synonymous with high-standards and cutting-edge technology both in Japan and around the World. As a customer-service focused company, TOTO works hard to enhance all aspects of their products from R&D to production and sales as well as after sales service. The company uses customer feedback to improve technology and consistently better the company and its products. With a mission to redefine cleanliness, TOTO focuses on making lives and lifestyles better, championing change with new philosophies that incorporate ergonomic and emotional engineering.

# ECOWASHER

## ECOWASHER

A fundamental version of the Washlet, the ECOWASHER summarises the virtues of basic yet high level of cleanliness. The spray nozzle operates solely by the water pressure hence, does not require any use of electricity. Dedicated to the minimalists who prefer one main function over elaborated ones, the ECOWASHER would be just as enjoyable to use as the TOTO Washlet.

**TCW1211A**  
Ecowasher  
Bowl Shape : Elongated / Regular Adjustable  
Function : Rear Cleaning  
: Bidet  
Material : Urea Resin  
380W x 509D x 105H mm

**For Australia**

**TCW1211AT**

## AIR-JET MASSAGE FUNCTIONS

### Air-Jet

The Air-Jet outlets at the bottom of the bathtub eject air. Full body Air-Jet massage creates the holistic relaxation.

### Whirlpool

The jet inside the bathtub ejecting water creates a whirlpool effect. The whirlpool effects massage the lower body and legs giving the total comfort.

### Air-Jet + Whirlpool

The luxury combination of Air-Jet and Whirlpool maximizes your bathroom experience.

# UNIVERSAL DESIGN

THE CONCEPT OF UNIVERSAL DESIGN (UD) EMBODIES TOTO'S COMMITMENT TO THE SOCIETY BY PROMISING THE DEVELOPMENT OF PRODUCTS THAT CATERS TO EVERYONE. WITH DESIGN FEATURES THAT ALLOW EASY MANEUVRE BY ANY ONE EVEN WITH PHYSICAL CONDITIONS, WE NOW HAVE A BETTER REASON TO LIVE WITH OUR LOVED ONES AS THEY AGE AND AS WE AGE.

# HYDROCERA

BREATHING® TILES THAT HARNESS THE POWER OF LIGHT AND WATER TO SELF-ELIMINATE DIRT AND GRIME FROM ITS SURFACES. LIVE IN THE WORLD THAT IS BUILT FROM HYDROCERA AS IT CAN BE USED AS WALLS FOR THE EXTERIOR AND INTERIOR, AS WELL AS FLOORING. WITH ANTIMICROBIAL, ANTI-MOLD AND ANTI-ODOUR PROPERTIES OF ITS HYDROTECT TECHNOLOGY, HYDROCERA HELPS TO KEEP THE AIR FRESHER, AND ENVIRONMENT CLEANER FOR A HEALTHIER LIFE. IN SHORT, A BETTER WORLD FOR YOU AND ME.

## PROPERTIES OF HYDROTECT

Hydrotec is an environmental purification technology that cleanses our living environment by a photocatalytic reaction that harnesses the power of light and water.

### Photocatalytic

Hydrotec produces a number of environmentally-beneficial effects through a process similar to photosynthesis in plants.

When exposed to light, titanium dioxide produces electrons ( $e^-$ ) and holes ( $h^+$ ). These react with oxygen and water ( $O_2$ ,  $H_2O$ ) in the air to produce activated oxygen ( $O_2^-$ ,  $OH$ ). This oxygen decomposes organic substances on the surface of products.

When titanium dioxide ( $TiO_2$ ) is exposed to light, the titanium (Ti) reacts with water ( $H_2O$ ) in the air, producing a hydrophilic layer that easily washes away any dirt or grime.

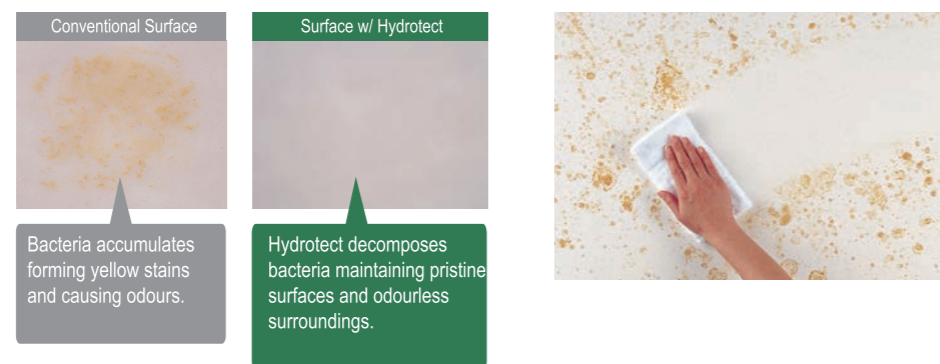

### Antibacterial

Antibacterial metals make it possible for surfaces with Hydrotec to decompose bacteria in poor-lit areas as well as under the sun. This improves hygiene on walls and floors in indoor areas such as toilets, bathrooms and kitchens.

### Anti-Odour

Through the decomposition of organic substances, surfaces remain free of stains that often emit foul odours.

### Highly Durable

HYDROCERA is fired under extremely high temperatures of  $1200^{\circ}C$  making it exceptionally durable and long-lasting.

**PROPERTIES OF HYDROCERA PU**

**STAIN RESISTANT**

Stains penetrate into the surface

Surface is clean after a simple wipe

**Testing Method**

- Coloured drops are applied onto the surface and left for one hour.
- The surface is wiped with a damp cloth.

**ANTIBACTERIAL**

Pink slime appears

Remains clean

**Testing Method**

- Liquid droplets containing bacteria are applied onto the surface.
- The surface is placed in a humid bathroom for a two-week duration.

**ANTI-ODOUR**
