ICON GUIDE

TOILET & LAVATORY

ACTILIGHT

Photocatalytic glaze, the ultimate cleaning technologinas the natural power to decompose waste.

EWATER+

Mists the wand, toilet bowl and the underneath of the seat with electrolyzed water keeping them clean to reduce the need for harsh chemicals.

CEFIONTECT

Ultra-smooth ceramic glaze leaves nowhere for waste to cling

PREMIST

A film of water keeps waste from clinging onto the toilet bow

TORNADO FLUSH

360° cleaning nower reaches every snot using less water

RIMLESS

The RIMLESS design not only leaves no place for waste and germs to hide, it's also much easier to clean

AIR-IN WONDER-WAVE

The precise, pleasant, air rich stream keeps you clean

LINEARCERAM

Material used for lavatories that achieves an extremely thin design yet two times a strong as standard fireclay

COMFORT TECHNOLOGY

AUTO FUNCTIONS

Product featuring integrated and automated sensor-activated functions

HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.

DEODORIZER

Highly- effective deodorizing automatically takes place inside the toilet bow both during and immediately after use, eliminating unwanted odors.

WARM AIR DRYING

The individually adjustable dryer follows the warm water spray to ensure a dry clean overall feeling.

FAUCET

SOFT FLOW

Elegant streams of water gently touch skin.

A premium calming experience. Soft and soothing.

BATH TUB

ZERO DIMENSION

ZERO DIMENSION bathing offers freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands

DESIGN AWARDS

The Red Dot is an award for high-quality design an international jury only awards this sought-after seal of quality to products that feature outstanding design

The IF DESIGN AWARD has long been a symbol of excellent form and aesthetic quality, as well as user-focused, ergonomic and efficient design in all disciplines among companies around the world

A gentle shape that provides users

with comfort and a sense of security.

The universal beauty of the WX harmonizes

with refined interiors.

0 / 11 DESIGN CONCEPT

DESIGN CONCEPT

Design Detail

esign Ory

Imaginations and design

TOTO spent over three years conducting interviews, primarily in Europe, as it designed the shape of the WX, which resonates with the sensibilities of sophisticated spaces, providing relaxation and peace of mind. It harmonizes with the exquisite aesthetic tastes of owners who understand true innate value. It is sought to create a form that welcomed users, both in body and in spirit, and the fruit of efforts that was a sense of solidity that users would want to feel themselves.

To create this sense of solidity that users would want to feel, the designers took the uniquely soft, beautiful lines of ceramic to their limits. They smoothed away every inorganic element to product a true feeling of uniformity

Prime Function

CLEAN SYNERGY

EWATER+

WASHES THE TOILET BOWL, WHERE WASTE TENDS TO ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ leaves microscopic waste no place to hide and provides everyday peace of mind.

How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

EWATER+ is applied to EWATER+ automatically wash the wand and toilet sprayed 8 hours after the bowl and remove waste last use

Before use → During use -

→ After use — → During standby

Reverts to normal

Uses no detergents

20 / 21 CLEAN TECHNOLOGY CLEAN TECHNOLOGY

CLEAN SYNERGY

EWATER+

AFTER EACH USE,
THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside thewand as well as all around the exterior.

Even when the toilet is not being used, the wand periodically washes itself to ensure constant clean conditions.

Self-Cleaning Mechanism

Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self cleaning, you will appreciate how easily you can reach it and wipe it spotless.

22 / 23 CLEAN TECHNOLOGY CLEAN TECHNOLOGY

CLEAN SYNERGY

EWATER+

EWATER+ IS SPRAYED ON THE EASILY FOULED FRONT SECTION OF THE BACKSIDE OF THE TOILET SEAT.

This helps suppress urine and other waste from becoming yellow stains, for long-lasting cleanliness. A quick manual spray before cleaning allows you to remove waste with a light wipe.

Survey: Evaluation of waste on the front section of the backside of the toilet seat with and without use of EWATER+

How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

After you step away from the toilet, EWATER+ is sprayed in the toilet bowland underneath the toilet seat, after which the lid automatically closes EWATER+ is automatically sprayed 8 hours after the

Before use \longrightarrow During use $\,$

──

→ After use → → During standb

EWATER+ reaches underneath the toilet seat.

EWATER+ is sprayed throughout the toilet bowl, with large droplets covering the bowl surface and small droplets carried by air currents reaching the front section of the backside of the toilet seat

Usage conditions: A number of uses equivalent to usage for two weeks by a family of four (without cleaning)

*Results vary according to usage and environmental conditions. All data collected by TOTO. The dotted lines in the figure show the area over with EWATER+ is sprayed.

CLEAN SYNERGY

PREMIST

CEFIONTECT

IS AN ULTRA SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

Eliminating the microscopic gaps where waste hides

Conventional ceramic may appear perfectly smooth to the eye, but it has gaps where waste particles can hide. At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.

What makes CEFIONTECT so durable?

A glass layer is burned over the conventional glaze layer, making CEFIONTECT an extremely durable material.

Water has a strong affinity to CEFIONTECT

Hydrophilic describes organisms and materials that attract water. CEFIONTECT is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.

PREMIST

To ensure waste washes away easily, a film of water keeps waste from clinging onto the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

CLEAN SYNERGY

RIMLESS

TORNADO FLUSH

NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

Powerful washing where waste can easily accumulate

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily to wash the entire bowl clean. The exquisitely-designed, high-quality ceramic bowl makes this innovative design possible.

RIMLESS

The RIMLESS design not only leaves no place for waste to hide, it also makes it much easier to clean the toilet.

30 / 31 CLEANSING TECHNOLOGY CLEANSING TECHNOLOGY

AIR-IN WONDER-WAVE

AIR RICH WATER DROPLETS TO PRODUCE A MORE COMFORTABLE WASHING SENSATION AND DELIVER MORE THOROUGH CLEANSING WITH LESS WATER CONSUMPTION.

Even more, water is warmed instantly as needed, so you need never worry about running out of warm water.

How AIR-IN WONDER-WAVE works

AIR-IN WONDER-WAVE technology is a precise and pleasant air-rich stream that keeps you clean. As water droplets are fired at different speeds, small droplets collide with larger ones, combining and expanding as they fill with more air. The injection of air enlarges the water droplets by approximately 30%

Select the type of cleansing you desire.

NEOREST® NX2, NX1, LE, AH and RH Remote Control

REAR CLEANSING

Large air-filled water droplets pr ovide a comfortable sensation and complete cleansing with minimal water use.

SOFT REAR CLEANSING

Plentiful showers of water provide a gentle sensation and complete cleansing over a wide area.

FRONT CLEANSING

A gentle dispersion of large water droplets ensures intimate cleansing in the most comforting way.

WIDE FRONT CLEANSING

Showers of small water drioplets reach a wide area, ensuring a gentle sensation for sensitive skin.

CLEANSING SPRAY PATTERNS

HOW AIR-IN WONDER-WAVE WORK

As water is fired at different speeds, small droplets collide with larger ones, combing and expanding as the droplets fill with more air. The injection of air englarges water droplet by around 30%

Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way

Shower of small water droplets reaches a wider area giving a gentle coddling sensation to sensitive skin.

Oscillating Cleansing

The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

Pulsating Cleansing

Rhythmically pulsating stream of cleansing

Wand Position Adjustment

You can easily set the wand position according to your preference.

Select from five levels of water pressure

COMFORT TECHNOLOGY

For greater performance and hygiene in the bathroom

AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

SOFT LIGHT

Subdued lighting switches on when the toilet is approached, so users don't have to be exposed to bright bathroom lights at night.

HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.

DEODORIZER

Highly-effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.

AUTO FLUSH

No need to touch buttons or the handle and never worry about someone forgetting to flush — it's automatic after each use.

WARM AIR DRYING

Enjoy the ease and comfort of the temperature-adjustable warm-air dryer.

Ultra-powerful water conservation. Flushes waste completely every time — no matter where the toilet is located.

HYBRID ECOLOGY SYSTEM

HYBRID ECOLOGY SYSTEM combines two innovative water streams—one from the plumbing system and one from a small tank inside the toilet—to maximize flushing efficiency. Using minimal water, HYBRID ECOLOGY SYSTEM is so effective at removing waste that a second flush is never required. What's more, the flushing power remains strong regardless of how high up in a building the toilet is located.

CLEAN SYNERGY means eco-friendly

CLEAN SYNERGY technologies offer a sustainable way to maintain sanitary conditions inside your toilet. Since waste does not accumulate and create stains, there is less need for manual cleaning with detergents.

Sustainable cleaning

WASHLET sprays the non-porous ceramic bowl with EWATER+, to help prevent the buildup of microscopic waste. Free of chemicals and cleaning agents, EWATER+ returns to the water cycle as pure H₂O.
