## TOILET & LAVATORY

ACTILIGHT		Photocatalytic glaze, the ultimate cleaning technology, has the natural power to decompose waste.
EWATER+		Mists the wand, toilet bowl and the underneath of the seat with electrolyzed water, keeping them clean to reduce the need for harsh chemicals.
CEFIONTECT		Ultra-smooth ceramic glaze leaves nowhere for waste to cling.
PREMIST		A film of water keeps waste from clinging onto the toilet bowl.
TORNADO FLUSH		360° cleaning power reaches every spot using less water.
RIMLESS		The RIMLESS design not only leaves no place for waste and germs to hide, it's also much easier to clean.
AIR-IN WONDER-WAVE		The precise, pleasant, air rich stream keeps you clean. And it's always pleasantly warm.
LINEARCERAM		Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.

## COMFORT TECHNOLOGY

AUTO FUNCTIONS		Product featuring integrated and automated sensor-activated functions.
HEATED SEAT		The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.
DEODORIZER		Highly- effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.
WARM AIR DRYING		The individually adjustable dryer follows the warm water spray to ensure a dry, clean overall feeling.

## FAUCET

SOFT FLOW		Elegant streams of water gently touch skin. A premium calming experience. Soft and soothing.
-----------	---	--

## BATH TUB

ZERO DIMENSION		ZERO DIMENSION bathing offers freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.
HYDROHANDS		Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

# DESIGN AWARDS

The Red Dot is an award for high-quality design an international jury only awards this sought-after seal of quality to products that feature outstanding design

The iF DESIGN AWARD has long been a symbol of excellent form and aesthetic quality, as well as user-focused, ergonomic and efficient design in all disciplines among companies around the world

Visionary technology.  
Exquisitely designed for  
comfort and well-being.

Born of science and our belief  
in everyday wellness to  
rejuvenate body and mind.

NEOREST®.  
The only one.  
A new form of pure luxury brought to life.

**PURE LUXURY**

reddot winner 2022

# Design Concept

This model has an integrated,  
elegant curvaceous silhouette.

The softly rounded form leaves a warm  
and gentle impression.

# Design Detail

# Design Story

## Imaginations and design

NEOREST RS realizes a noiseless design that is simple and gentle, with a charming and softly rounded form. Exuding a unique sense of softness, it was developed by the designer and design engineer based on the concept of offering “a space where the entire family, young and old, can relax. A brightly lit space designed to evoke images of a forest with rays of light filtering through the trees.”

\*TOTO established a new field in “design engineering” with the aim of fusing designing with technologies at an advanced level. Product designers specialize in overall production, while design engineers oversee digital modeling and design application to enhance the design quality of products.

## Detail

Particular attention was paid to its “softly rounded form.” A wide variety of products with rounded shapes have been studied meticulously by both designer and engineer to try to achieve a rounded form that people would find pleasing. The pursuit of a rounded form that is acceptable for NEOREST is by paying close attention to the slightest changes in the curves by taking into account of how light is reflected off its surface inside the restroom.

# Prime Function

# CLEAN TECHNOLOGY

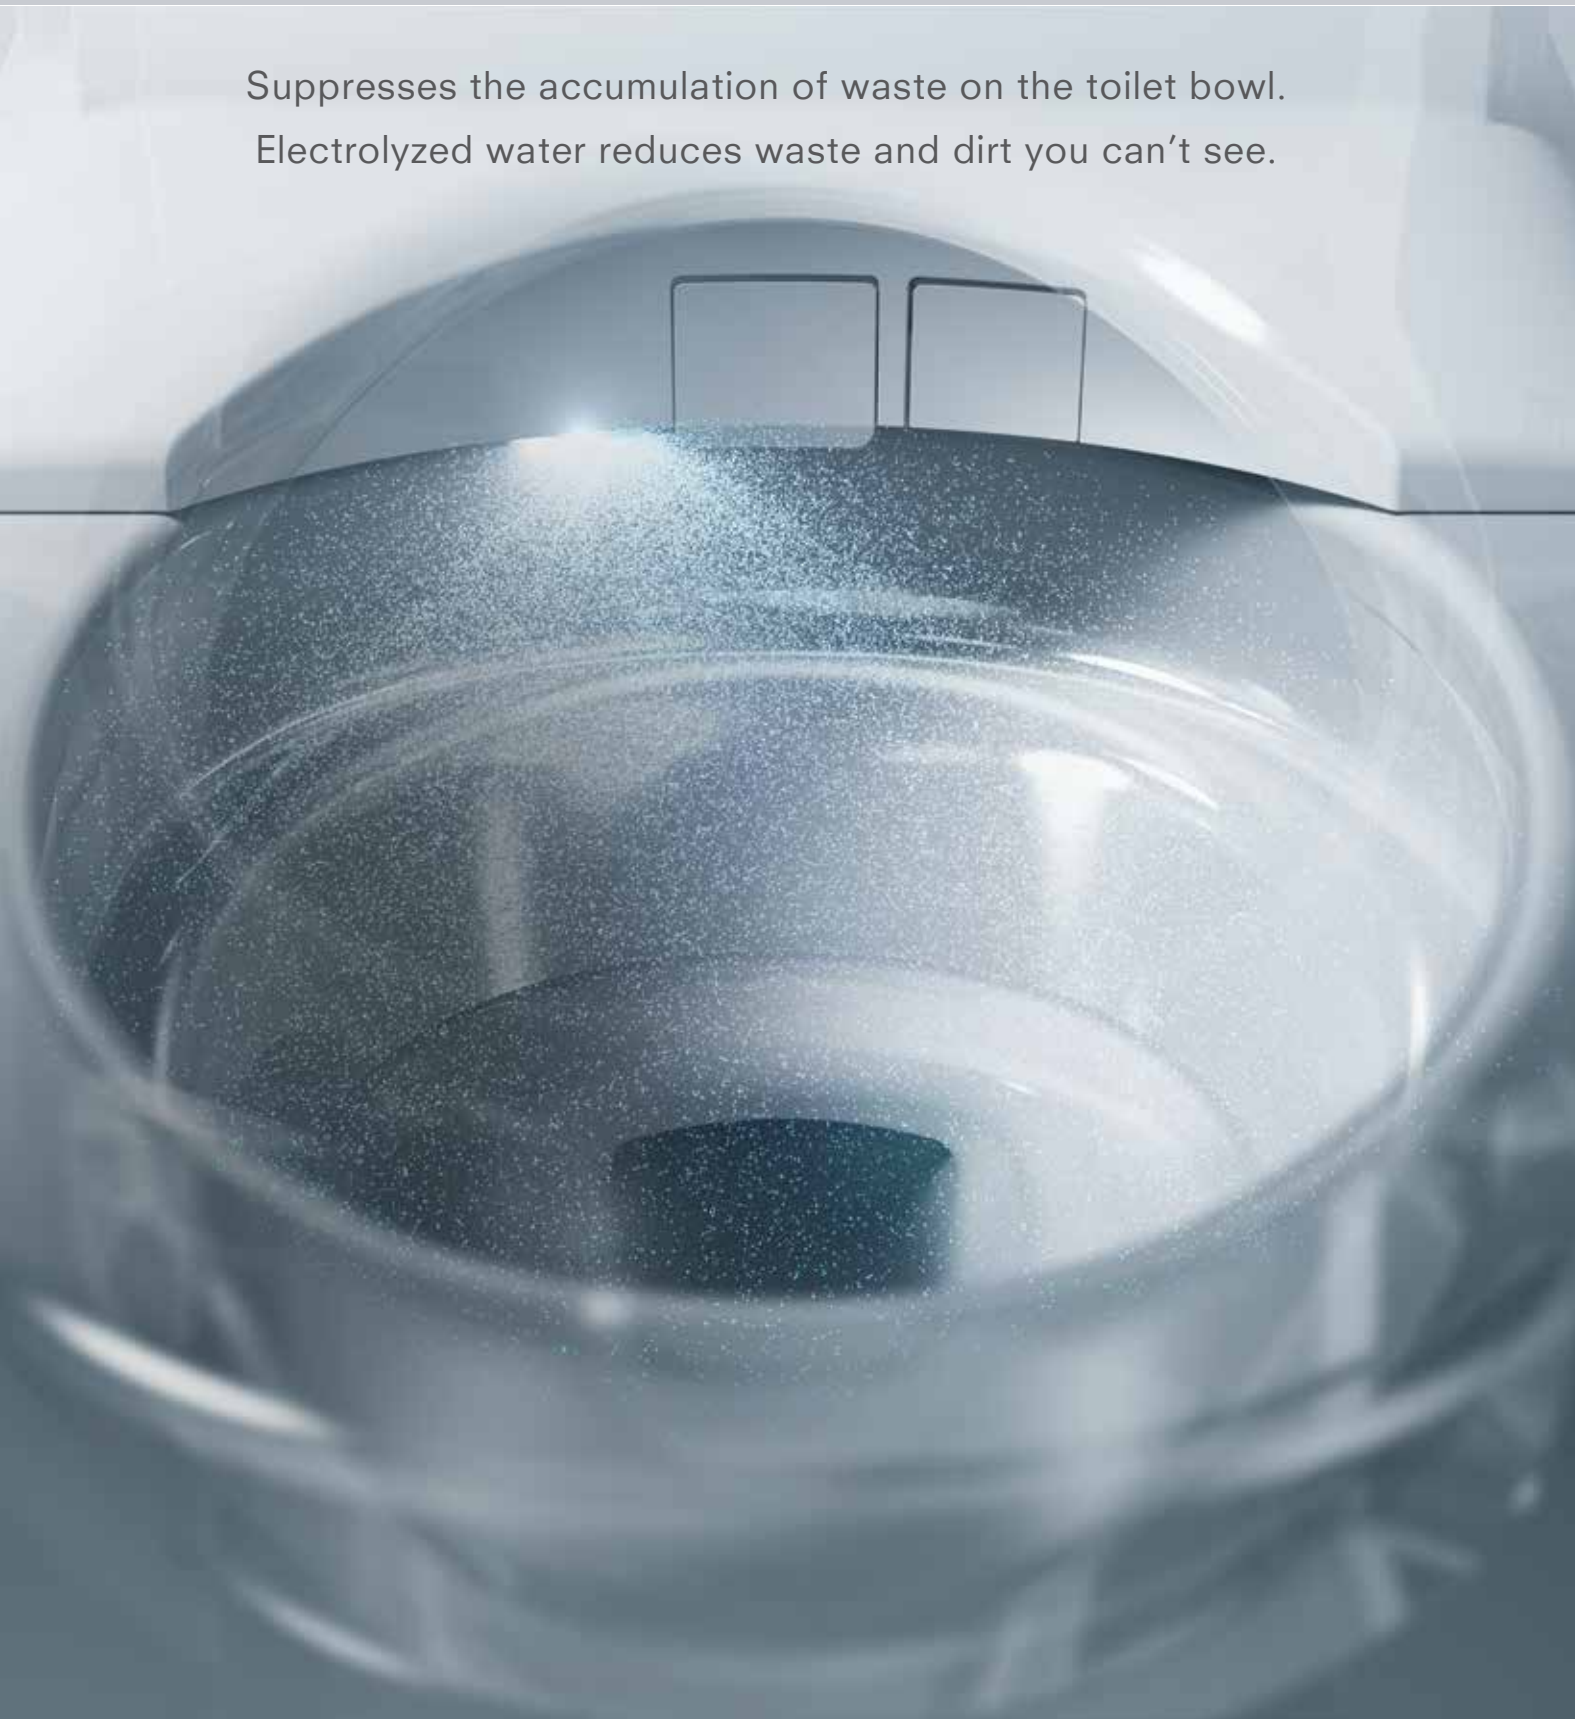

Ensuring lasting cleanliness  
for your peace of mind

## CLEAN SYNERGY

### EWATER+ for BOWL

Suppresses the accumulation of waste on the toilet bowl.  
Electrolyzed water reduces waste and dirt you can't see.

### EWATER+

WASHES THE TOILET BOWL, WHERE WASTE TENDS TO  
ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ leaves microscopic waste no place  
to hide and provides everyday peace of mind.

### How EWATER+ Cleans

PREMIST, a fine mist of  
water is sprayed inside  
the toilet

Before use

Since waste is less  
able to adhere to a  
wet surface, it is more  
easily washed away

During use

EWATER+ is applied to  
wash the wand and toilet  
bowl and remove waste

After use

EWATER+ automatically  
sprayed 8 hours after the  
last use

During standby

Generated from  
tap water

Uses no detergents  
or chemicals

Reverts to normal  
water with time

## CLEAN SYNERGY

**EWATER+**  for WAND

Suppresses the accumulation of waste on the wand.  
The wand washes itself inside and out with EWATER+ to maintain hygienic conditions.

## EWATER+

AFTER EACH USE,  
THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior.  
Even when the toilet is not being used, the wand periodically washes itself to ensure constant clean conditions.

### Self-Cleaning Mechanism

### Always Keeping Conditions Clean

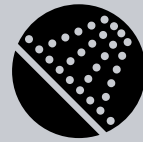

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it. Though the wand is self cleaning, you will appreciate how easily you can reach it and wipe it spotless.

## CLEAN SYNERGY

### CEFIONTECT

### PREMIST

Forces waste to slide down.

Ultra-smooth ceramic leaves  
nowhere for waste to cling.

Prevents waste from clinging.

A film of water keeps waste  
from clinging onto the toilet bowl.

## CEFIONTECT

IS AN ULTRA SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

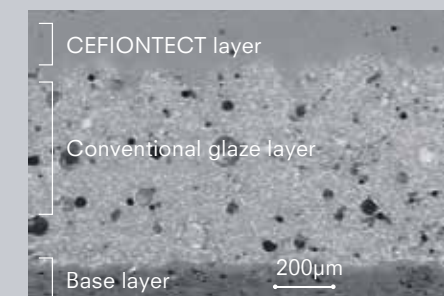

### Eliminating the microscopic gaps where waste hides

Conventional ceramic may appear perfectly smooth to the eye, but it has gaps where waste particles can hide. At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.

### What makes CEFIONTECT so durable?

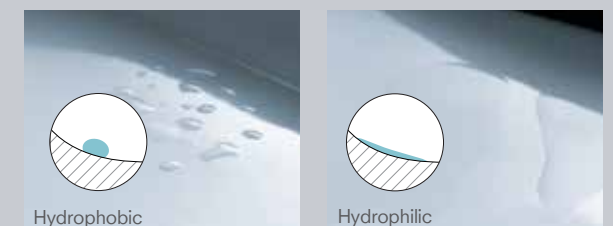

A glass layer is burned over the conventional glaze layer, making CEFIONTECT an extremely durable material.

CEFIONTECT toilet micrograph \*1Qm=0.001mm

### Water has a strong affinity to CEFIONTECT

Hydrophilic describes organisms and materials that attract water. CEFIONTECT is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.

## PREMIST

To ensure waste washes away easily,  
a film of water keeps waste  
from clinging onto the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use. Due to the ceramic's hydrophilic nature, waste washes away more easily.

## CLEAN SYNERGY

**TORNADO  
FLUSH**

**RIMLESS**

Swirls and ejects waste entirely

360° cleaning power reaches every spot using less water.

## TORNADO FLUSH

NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

Powerful washing where waste can easily accumulate

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily to wash the entire bowl clean. The exquisitely-designed, high-quality ceramic bowl makes this innovative design possible.

## RIMLESS

The RIMLESS design not only leaves no place for waste to hide, it also makes it much easier to clean the toilet.

# CLEANSING TECHNOLOGY

Supporting your health and wellness  
with a new type of clean

# CLEANSING SPRAY PATTERNS

## HOW CLEANSING SPRAY WORK

This technique sprays water droplets in rapid succession to achieve powerful cleansing while only using small amount of water. Providing comfort by supplying an alternate motion of large and small water droplets to create a sense of abundance yet sufficient strength

 Large air-filled water droplets offer complete cleansing and a comfortable sensation with minimal water use.

 Plentiful shower of water gives a gentle sensation for complete cleansing over a wider area.

 Gentle dispersion of large water droplets ensure intimate cleansing in the most comforting way

 **Oscillating Cleansing**  
The back-and-forth movement of the wand ensures thorough cleansing of the entire area.

 **Pulsating Cleansing**  
Rhythmically pulsating stream of cleansing warm water.

 **Wand Position Adjustment**  
You can easily set the wand position according to your preference.

 **Wand Pressure Adjustment**  
Select from five levels of water pressure

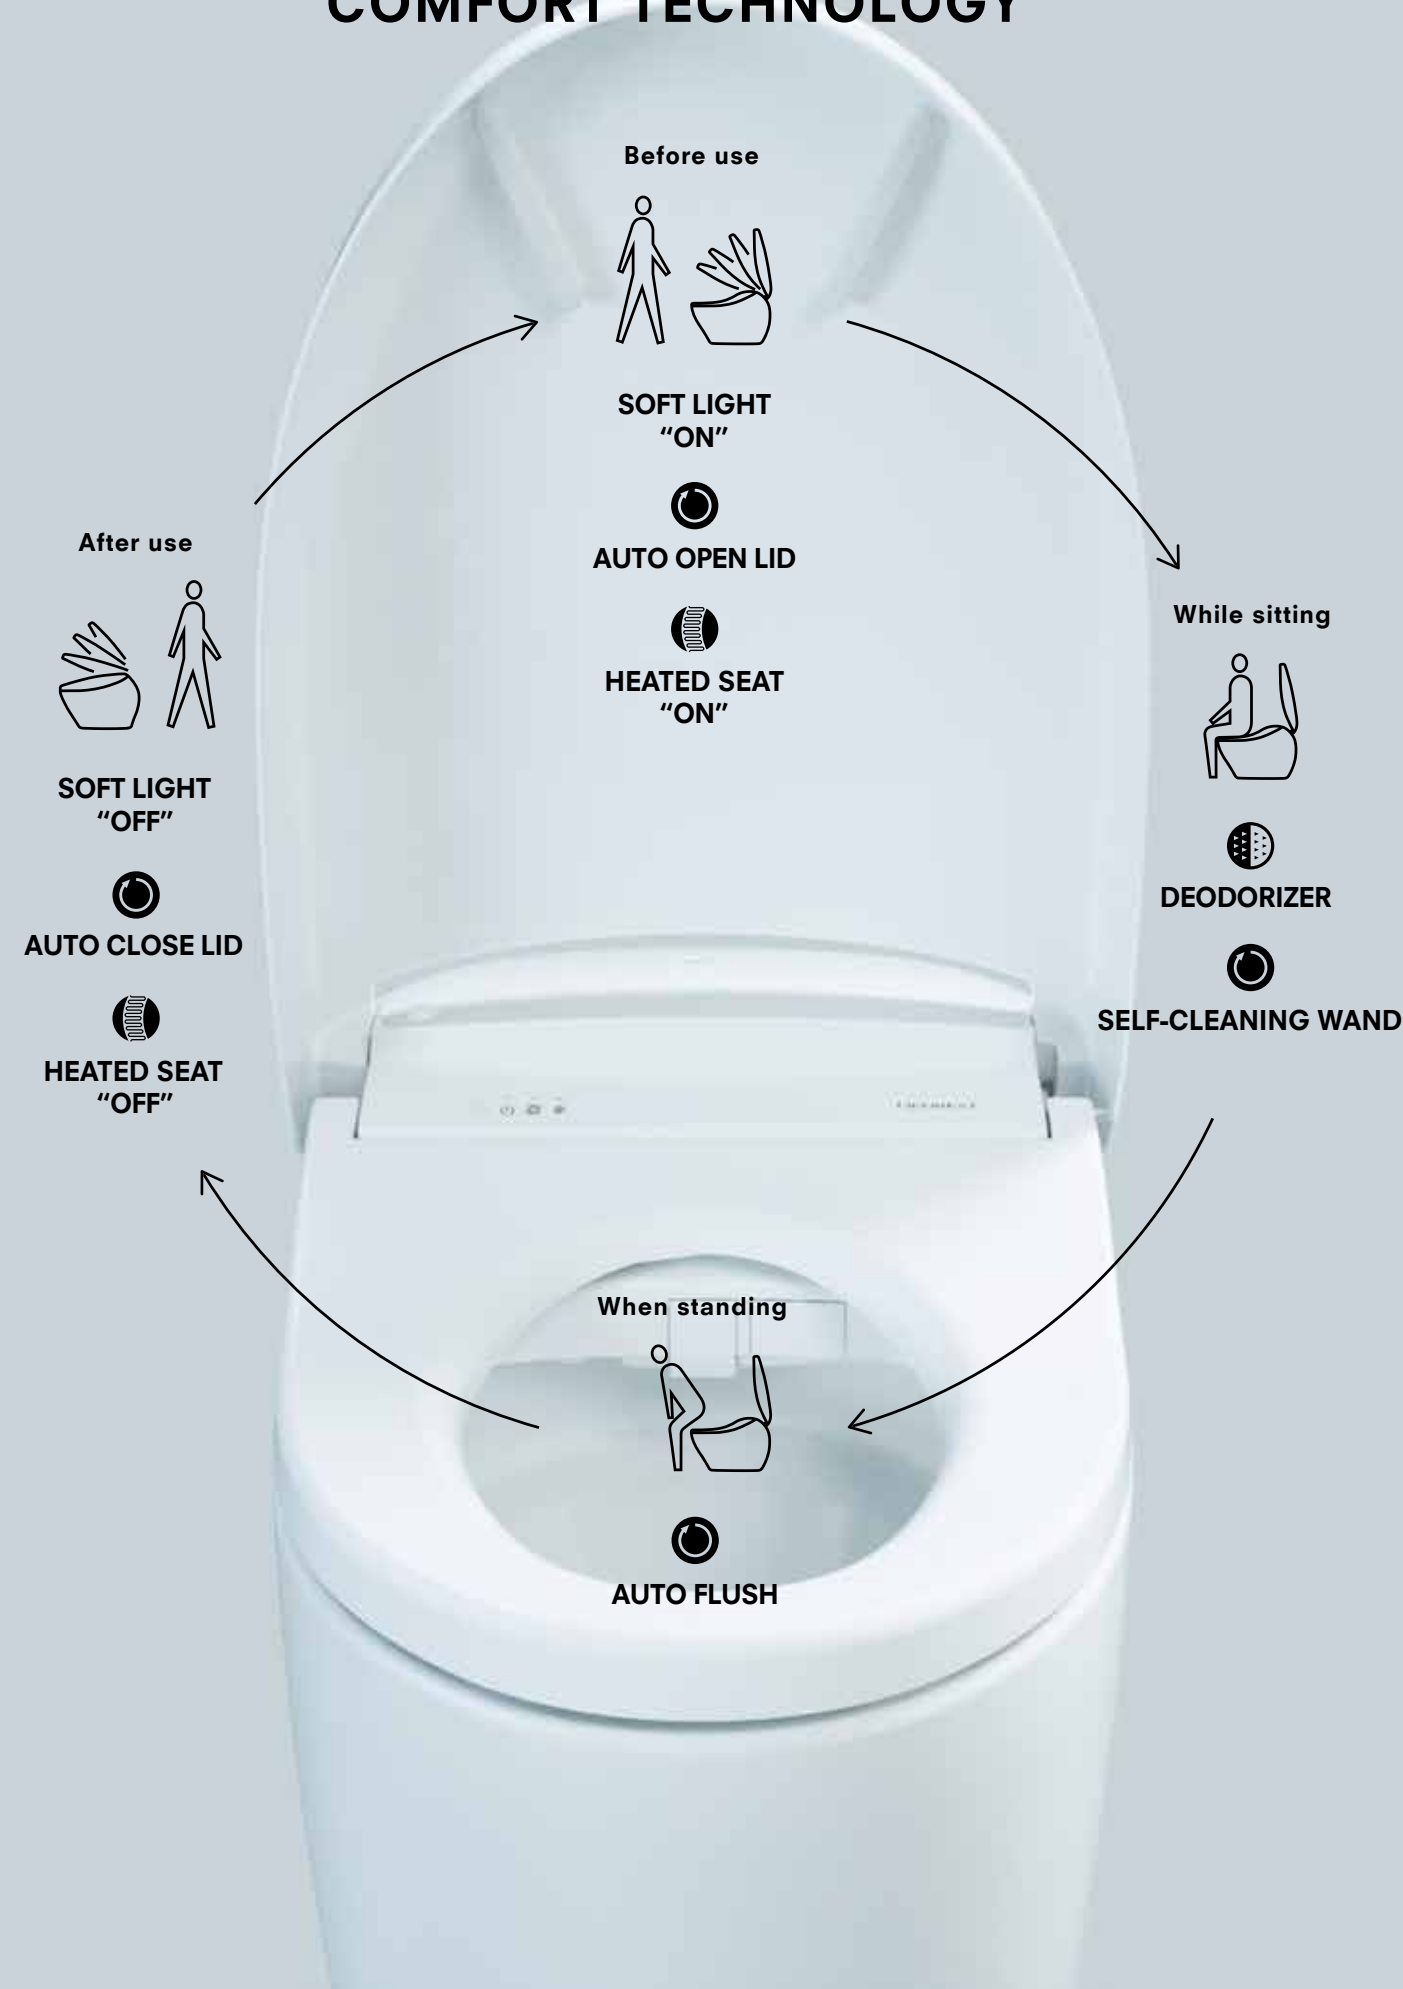

# COMFORT TECHNOLOGY

Pursuing comfort to enrich everyday living  
for you and your loved ones

COMFORT TECHNOLOGY

COMFORT TECHNOLOGY

For greater performance and hygiene in the bathroom

AUTO OPEN / CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

SOFT LIGHT

Subdued lighting switches on when the toilet is approached, so users don't have to be exposed to bright bathroom lights at night.

HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.

DEODORIZER

Highly-effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted odors.

AUTO FLUSH

No need to touch buttons or the handle and never worry about someone forgetting to flush — it's automatic after each use.

WARM AIR DRYING

Enjoy the ease and comfort of the temperature-adjustable warm-air dryer.

## SUSTAINABILITY

Ultra-powerful water conservation.  
Flushes waste completely  
every time — no matter where  
the toilet is located.

### HYBRID ECOLOGY SYSTEM

**HYBRID ECOLOGY SYSTEM** combines two innovative water streams—one from the plumbing system and one from a small tank inside the toilet—to maximize flushing efficiency. Using minimal water, **HYBRID ECOLOGY SYSTEM** is so effective at removing waste that a second flush is never required. What's more, the flushing power remains strong regardless of how high up in a building the toilet is located.

### CLEAN SYNERGY means eco-friendly

CLEAN SYNERGY technologies offer a sustainable way to maintain sanitary conditions inside your toilet. Since waste does not accumulate and create stains, there is less need for manual cleaning with detergents.

### Sustainable cleaning

WASHLET sprays the non-porous ceramic bowl with EWATER+, to help prevent the buildup of microscopic waste. Free of chemicals and cleaning agents, EWATER+ returns to the water cycle as pure H<sub>2</sub>O.

# HOW THE REMOTE CONTROL WORKS

Easy and Convenient to Use.

NEOREST®

- ①

**Full flush**

Performs a full flush.
- ②

**Light flush**

Performs a light flush.
- ③

**Wand clean**

Cleans the wand with “EWATER+”.
- ④

**Personal setting lock**

Store your preferred “Water pressure”, “Wand position” and “Warm water temperature” settings.
- ⑤

**Opening and closing the toilet seat**

Opens and closes the toilet seat.
- ⑥

**Opening and closing the toilet lid**

Opens and closes the toilet lid.
- ⑦

**Stopping**

Stops operation.
- ⑧

**Rear cleansing**

Cleanses your rear.
- ⑨

**Soft rear cleansing**

Cleanses your rear with a soft, embracing water flow.
- ⑩

**Front cleansing**

Serves as a bidet for ladies.
- ⑪

**Water pressure adjustment**

You can make a selection from 5 different water pressure levels.
- ⑫

**Wand position adjustment**

You can make a selection from 5 different wand position levels.
- ⑬

**Warm air drying**

Dries your rear.
- ⑭

**Oscillate**

The wand moves back and forth for a thorough cleanse.
- Pulsate**

Water pressure alternates between soft and strong for a massage effect.
